

From the leader in labelled compound synthesis

Biomolecular NMR Products

Our list of Biomolecular NMR Products is extensive und includes the following:

Amino Acids
Amino Acids- ¹³ C, ¹⁵ N Specifically labelled Amino Acids N-t-BOC and F-MOC Protected Amino Acids
Growth Media
ISOGRO™ - ¹³ C Powder ISOGRO™ - ¹³ C, ¹⁵ N Powder ISOGRO™ - ¹⁵ N Powder ISOGRO™ - ¹³ C, ¹⁵ N D Powder ISOGRO™ - Powder (unlabelled)
Glucose
D-Glucose- ¹³ C ₆ D-Glucose- ¹³ C ₆ ,C-d ₇ D-Glucose-C-d ₇
NMR Solvents
Buffers & Reagents
Acetic Acid-d ₄ DL-1,4-Dithiothreitol-d ₁₀ Dodecylphosphocholine-d ₃₈ Ethylenediaminetetraacetic Acid-d ₁₂ Glycine-d ₅ Sodium Dodecyl-d ₂₅ Sulfate Tris-d ₁₁
Ammonium Salts
Ammonium- ¹⁵ N Chloride Ammonium- ¹⁵ N ₂ Sulfate
Custom Synthesis
Deoxyribonucleotides - ul - ¹³ C, ¹⁵ N Ribonucleotides - ul - ¹³ C, ¹⁵ N
Technical Knowledge
Our knowledge and expertise allow the production of thousands of labelled products and the flexibility to meet any customers' needs. Campro Scientific GmbH is fully committed to the development of innovative ways to synthesize both new and existing compounds.
The Isotec Advantage
We continue to be the trusted source for reliable stable isotope labelled products for Biomolecular NMR Studies. Campro Scientific GmbH offers a comprehensive line of ¹³ C, ¹⁵ N, and/or D labelled compounds for metabolic or rational drug design research. Campro Scientific GmbH's pioneering synthesis knowledge enables us to synthesize compounds that help you reach your goals.
